

161. BOWL S.S SMALL

Specifications

Qualitative Requirements	Picture of Equipment
<p>Small Material Stainless Steel</p> <p>Features: 4,1/2 diameter . 2.5 to 3” base, depth 2” well-fitting lid with central hold. Snugly fitting lid with central hold for opening and closing.</p>	 A photograph of a small, round stainless steel bowl. The bowl is centered in the frame and is viewed from directly above. It has a smooth, reflective surface. The bowl is placed on a light-colored, slightly wrinkled fabric or paper background. The lighting is even, highlighting the circular shape and the slight depth of the bowl.
